

## **Attributing Documentary Australia Foundation**

As part of the terms and conditions accepted by filmmakers when submitting an application to raise philanthropic funds through Documentary Australia, completed films must attribute Documentary Australia in Approved Documentary's credits.

The suggested wording is:

"Financed with the assistance of Documentary Australia Foundation".

This attribution must also include Documentary Australia's Logo, in this pack you will find a range of our logos, in both black and white for your use.

### **Logo Use Guidelines:**

- The logo used must be clearly distinguishable from the background.
- The logo should remain in black or white.
- There should be sufficient space when placing the logo to maintain its legibility.
- The logo should not be stretched or distorted.
- No elements should be added to the logo (i.e. additional images or text).
- We recommend using Overpass as the complimentary text to the logo.
